

IT and cyber security

Reports, deadlines, workshop and examination

Report on introduction (day 1)

- Course description: ” a written report of approximately one page (20 hours). The report shall contain a reflection of the subject, preferably with a connection to the authors own research or work.”
- Deadline for sending in report: **15/1 2017.**
- Review and examination:
 - Send in report to Christina Grönwall.
 - Review will be performed by Christina Grönwall, Amund Hunstad and Jonas Hallberg.
 - Feedback during January.
 - Approved report -> into Ladok during March 2017.

Report on advanced part (day 2-4)

- Course description: "a project assignment (60 hours), and a workshop where a projects are presented (4 hours). In the assignment, approximately 4-6 pages, the students are expected to **select an IT/cyber security related topic** and **apply on the students' own research** as well as **put in the context of a relevant IT/cyber security scenario**. The report can be written as a conference paper."
Proposal: perform a 'simplified security assessment'.
- Deadline for report accepted for workshop presentation: **31/1 2017**. -> Send in report 1-2 weeks before for review to have a discussion with the supervisor!
- Workshop date: **Monday Feb 13 10:15-12:00**.
- Lecture day 3:
 - Students present their proposal for subject.
 - Each student gets an supervisor.
- Workshop day:
 - All student works' are handed out five days ahead to the other students.
 - Each student present their work in approx. 20 minutes.
 - Discussion with the student group and supervisors.
 - All students will be invited to the workshop
- After workshop and approved report: into Ladok during March 2017.
- **NOTE: Full course = Participation + 2 reports + 1 workshop.**
